

Altrad Belle minidumper BMD300

The motorized minidumper BMD300 with four-wheel drive is developed for fast loading and transport, and even greater flexibility and handling. This machine can contain all kinds of loads on all possible terrains for different construction, landscaping and agricultural work. The Belle minidumper is stronger than every other dumper, which is partly realized by a continuously strong frame. This frame consists out of one part including the handle and is equipped with a protective bottom plate.

Benefits:

- Can climb on slopes up to 38°
- Four-wheel drive and adjustable center wheel for stimulating the four-wheel driven power
- Soil protection plate to prevent damage caused by stones
- Gearbox with 4 forward gears and 1 reverse
- Strong, heavy-duty design, tilt mechanism for loads up to 300 kg
- Ideal for small spaces, fits through 70 cm wide doors and gates
- Easy to maneuver when turning
- 4 x multifunctional tires and disc brakes
- Faster and more flexible than track-driven dumpers
- Easy accessible engine for maintenance
- Lower position of the bucket ensures quick tilting
- Perfectly balanced when working with a full load
- Additional bearings to support the shaft and reinforcement plate
- Parts for maintenance available quickly

Large tray with a load capacity of up to 300 kg.

Can handle steep slopes when fully loaded.

Designed to pass through 70 cm doors and gate openings.

Scan the QR code and view the mini dumper and all accessories on the Altrad Fort website.
